WordPress & Shopify Developer | 4 Years of Professional Experience

Summary

Experienced WordPress & Shopify developer with 4 years of professional web development experience, including 4 years of WordPress development and 1.3 year of dedicated Shopify development. Skilled in creating custom WordPress themes, developing custom plugins, and overriding WooCommerce templates, as well as building and customizing Shopify stores from Figma designs. Proficient in Oxygen Builder, ACF, WooCommerce, and Shopify Liquid theme development, with a strong understanding of PHP, HTML, CSS, and JavaScript, Liquid.

Experience

WordPress & Shopify Developer

SprybitLLP • Ahmedabad, Gujarat

05/2025 – Present

WordPress Development:

- Continued developing and maintaining WordPress websites, custom themes, and WooCommerce integrations for new and existing clients.

Shopify Development:

- Converted Figma designs into fully functional Shopify stores using premium themes, including Dawn and Symmetry.
- Customized Shopify theme sections, templates, and Liquid code to match client requirements and business needs.
- Developed custom Shopify functionality, including customer-tag-based pricing, delivery-time estimation, and custom mega menus.
- Integrated third-party Shopify apps and services, including pre-order tools, wishlist apps, shipping carriers, and Shopify Forms.
- Configured Shopify metafields and product/collection customization to support dynamic content and merchandising needs.

WordPress Developer

PeanutSquareLLP • Ahmedabad, Gujarat

03/2022 – 04/2025

Frontend Development:

- Developed and customized responsive WordPress themes using HTML, CSS, JavaScript, and PHP to enhance user experience and meet client requirements.
- Collaborated closely with UX/UI designers to translate design concepts into pixel-perfect frontend components. Ensured cross-browser compatibility and optimized website performance for various devices.

- Created and implemented custom Elementor and Oxygen Builder templates, improving site design consistency and performance.
- Built custom shortcodes to enhance content editing flexibility and streamline the content management process.
- Optimized website performance by improving LCP, FCP, and CLS scores through lazy loading, CSS/JS minification.
- Integrated WooCommerce customizations, including custom product archive & product single, cart page enhancements, and dynamic checkout modifications.

Backend Development:

- Developed custom WordPress plugins and themes using PHP, ensuring compatibility with the latest WordPress core updates.
- Created and managed custom post types, taxonomies, and metaboxes to extend WordPress functionality and improve content organization.
- Built REST API endpoints to enable secure data exchange between WordPress and external platforms.
- Implemented WooCommerce customizations, including dynamic pricing, product filtering, and checkout flow modifications.
- Developed custom shortcodes and widgets to provide flexible content integration and enhance site usability.

Version Control and Collaboration:

- Managed code versions using GitHub.

Tools & Technologies:

- **Languages & Frameworks:** HTML5, CSS3, JavaScript, jQuery, PHP, MySQL
- **Shopify Development:** Shopify, Shopify Liquid, Dawn Theme, Symmetry Theme, Custom Sections & Templates, Shopify Apps & Integrations, Shopify Metafields, Customer Tags, Product & Collection Customization, Figma to Shopify Development
- **CMS Platforms:** WordPress (Core, Themes, Plugins), WooCommerce, Elementor, Oxygen Builder, Gutenberg
- **APIs:** REST API
- **SEO Tools:** Yoast SEO, SEOPress, All in One SEO
- **Performance Optimization:** WP Rocket, Autoptimize, Lazy Load, CDN (Cloudflare)
- **Email & Marketing:** Brevo (SMTP), GetResponse, Zapier

Wordpress Projects

1. **Fylit (<https://fylit.com.au/>):** Developed a custom WordPress website using ACF Pro and a custom theme. Built a Tax Return plugin with multi-step conditional forms, dynamic pricing, email automation, Stripe integration, and database management, along with a referral code system for payment discounts.
2. **Timesbull (<https://www.timesbull.com/>):** Developed a fully functional WordPress website for custom template and category page for a custom theme. Designed and implemented custom headers and footers to align with the brand's unique requirements.
3. **Dhartiindustries (<https://dhartiindustries.com/>):** Developed a fully functional WordPress website for Dharti Industries using Elementor and a custom theme. Designed and implemented custom headers and footers to align with the brand's unique requirements.

4. **Marnie** (<https://www.marnie.com/>): Developed a customized WooCommerce dashboard using Oxygen Builder in WordPress. Implemented a tailored My Account page with custom tabs for purchased and unpurchased products, enhancing the user experience and facilitating better product management.
 5. **Nest-Public-School** (<https://nestpublicschool.org/>): Designed and developed a WordPress site using the Elementor plugin, with additional custom coding for specific page content. Created and displayed content using a custom post type to enhance site functionality and organization.
 6. **Tirupatipolyflex**: Developed a custom WordPress theme with tailored headers and footers, and designed the site using the Elementor plugin. Integrated the WooCommerce plugin and implemented a popup form to enhance user interaction and site functionality.
-

Shopify Projects

1. **SAX Healthcare** (saxhealthcare.com.au): Converted Figma designs into a fully customized Shopify store built on a premium theme for a healthcare products retailer. Developed a custom PHP application to display dynamic product pricing based on customer tags and implemented Australian postcode-based functionality.
 2. **Jullia Bridal** (julliabridal.com.au): Converted Figma designs into the Shopify Dawn theme to build an online bridal store for wedding dress sales and rentals. Integrated Shopify Forms, a pre-order application, Australia Post shipping, and the GroPulse Wishlist, and structured the theme for easy client-side maintenance via the Theme Editor.
 3. **Velspices** (velspices.com.au): Converted Figma designs into the Shopify Dawn theme to build an online grocery e-commerce store. Developed a custom delivery-time estimation feature, a custom mega menu, a Recently Viewed Products section, and a dynamic "You May Also Like" recommendation section.
 4. **Girnar Ayurvedic** (girnarayurvedic.com): Converted Figma designs into the Shopify Dawn theme and developed two custom multi-brand landing pages. Built custom Shopify sections to support distinct brand layouts while maintaining a consistent underlying theme structure.
 5. **Pera Luggage** (peraluggage.com.au): Customized the Shopify Symmetry theme and developed a custom mega menu based on client requirements. Implemented product-size selection functionality with custom navigation to the corresponding product variant.
